RELATED EXPERIENCE

Web Developer, @ Supplyhouse.com

08/2016-Present

-- Full time (responsible for front-end work of redesigning websites, launched at Nov. 3)

- Developed fully functional responsive new websites for e-commerce, using HTML5, CSS3, Bootstrap, jQuery, Java, AJAX and FreeMarker as well as tools like Sublime Text, Eclipse, SVN and Adobe Photoshop
- Designed prototypes based on business requirements and then translated prototypes and designs into clean, valid, and launch-ready pages
- Bridged the gap between graphical design and technical implementation, taking an active role on both sides and defined how the application looks as well as how it works
- Managed small websites in GoDaddy with Php and MySql

Full Stack Developer, @ Yumso Inc

05/2016-Present

-- Co-founder in Startup Yumso, a mobile food sharing platform

- Developed chefs/admins/drivers' websites with AngularJS, D3.js, Sass, Bootstrap, jQuery, etc. Our app and website have been launched and put into production
- Executed and contributed to full-stack web development projects, with an emphasis on front end features, browser manipulation, and cross-browser compatibility
- Worked remotely in a virtual team and experienced with startup environment (agile development methodology)

Front-end Developer, @Cornell University

09/2015-12/2015

-- Software Engineering Class Project, Clients: MERID Research Group

- Developed a web application for online investigations – using jade, node.js, jQuery and JavaScript
- Designed interactive prototypes to get feedback from clients and followed SE Development Methodologies

iOS Developer, @Cornell University

02/2016- 05/2016

--FitCat iOS App Development Project, Clients: Cornell Feline Health Center

- Developed a mobile application from sketch to an iOS app can improve the health and well-being of cats
- Designed UI with Sketch 3 and developed with Swift, Xcode, and Firebase

UI/UX Designer, @Cornell University

10/2015-12/2015

-- Human-computer Interface Design Class Project

- Followed HCI processes and designed a mobile UI targeting students who have diary restrictions at campus
- Designed fully-interactive low quality/high quality prototypes and click-through which were used for presentations, mock-ups, as well as user-testing studies

INTERNSHIP

IT Consulting Assistant, @ PwC LLP

03/2015- 06/2015

- Developed users' interface on APEX, tested systems, cleaned Oracle database and managed project documents
- Studied data's architecture and worked on ERD for the whole Finance System independently

Project Assistant, @ SAP SE

05/2014- 10/2014

- Analyzed clients' requirements and improved customers' satisfaction by redesigning processes
- Cooperated with global IT architects to finish 20+ reports on SAP ERP integration, HANA in-memory immigration and systems landscape optimism (SLO)

Sales Operation and Channel Assistant, @ NetApp Inc

07/2013-01/2014

- Supervised 100+ orders daily by frequently cooperating with Sales managers, Channel Managers and Partners
- Analyzed and summarized weekly district reports for deal registration to 4 Channel Managers separately

SKILLS

- Programming language: JavaScript, HTML5, CSS3, Sass/Scss, Bootstrap 3, jQuery, Sql, Php, Swift, AngularJS
- Software skills: Axure RP, Sketch 3, Adobe Photoshop, Adobe Illustrator, Prezi, Sublime, Visual Studio Code
